

ScentGift: Personalized Perfume Gift Recommendation System

Business Concept

ScentGift is a fictional perfume business specializing in personalized perfume recommendations for customers who want to give perfumes as gifts.

Instead na:

“Browse ka lang ng perfume tapos pili ka.”

Ang selling point niyo:

“Tell us who you're buying for, and we'll help you find their scent.”

PRIMARY PROBLEM

Maraming gustong bumili ng perfume as a gift pero hindi nila alam kung anong scent ang bagay sa recipient.

For example:

“Birthday ng girlfriend ko. Gusto ko siyang bilhan ng perfume pero wala akong idea kung anong scent niya.”

Normally, customer has to guess.

ScentGift solves this by:

asking the customer a few questions about the recipient and generating perfume recommendations based on the answers.

Bakit ito magandang project?

Kasi kapag demo day, hindi lang kayo magpapakita ng:

“Here's our CRUD.”

Pwede niyong i-demo nang ganito:

Client:

“I need a perfume for my girlfriend's birthday. She likes sweet and elegant scents. My budget is ₱1,000.”

ScentGift:

 **Vanilla Bloom — 95% Gift Match**

- ✓ Sweet preference
- ✓ Elegant personality
- ✓ Birthday appropriate
- ✓ Within budget

Then Add Gift Wrap → Write Message → Place Order.

Switch to Staff side:

 **New Order #SG1028**

Staff accepts → Preparing → Ready for Pickup.

Balik sa Client:

 **Your gift is ready!**

Ayan na mismo yung complete end-to-end workflow na hinihingi sa project brief niyo. And importantly, sarili niyong fictional perfume business ang ScentGift, so puwede kayong gumawa ng sariling branding, perfume names, prices, packaging, at UI without needing to copy an existing perfume company.
